Back by Popular Demand!

Wine Explorations at Fermentations Home Winemaking Center

Although it's been a number of years since we've done these, they were very popular in the early days of Fermentations so we decided to give them another try.

These are "Private Events" so we can share education, snacks and beverages while we enjoy conversations about our combined experiences. We'll learn about the best wine regions of the World, and create terrific wines from those regions as a group.
There are five (5) steps to creating great wines (approx. every two weeks):
Primary Fermentation, Secondary Fermentation, Stabilization, Clarification and Bottling eight (8) weeks later.

Generally these will be held on the Second Tuesday of a month, with the first one on December 8th and subsequent steps scheduled that evening. Bottling will be done as a Group.

This first one will feature wines from Argentina and Chile, with one (1) batch of wine per couple – a minimum of four to six wines per session. Fermentations will provide snacks and beverages for the first of five sessions, and the Group will provide snacks during the fifth session (Bottling).

Cost will be $365.00 per Couple *(paid in advance to secure your spot)* and each batch produces +/- 30 bottles of wine.
Each Couple can mix and match their wines within the Group.

If you're interested in participating, please contact Tim or Brenda at Fermentations to answer any questions you have, and get signed up to participate. This will be fun and educational!
